Subject: Granite Basin OHV Comments

Hello Clay,

I am writing in support of the addition of more miles of trail in the Granite Basin OHV area. OHV areas create concentrated use for the OHV user group, which in turn reduces their impacts on other parts of the forest. Powersports are one of the largest sectors within the outdoor recreation industry, and by offering a network of local areas like Downieville, Mt. Hough, and Granite Basin, our local communities can greatly benefit from the tourism they bring. Please continue to advocate for continued trail development on our local national forests.

Thank you,
Saylor
